

PRESTART CHECKLIST

Project Address: _____ Job Number: _____

Site Contact Name: _____ Site Contact Cell Number: _____

1. Timing

- ETA of tank delivery ETA of installation

Any changes must be communicated at least 24 hours before installation commences.

FAILURE TO COMMUNICATE WILL RESULT IN A RE-SCHEDULING WHICH MAY BE UP TO 2 WEEKS DELAY!

2. Installer

Installation Company: _____

Installer Name: _____

- Installer has received FenceTank Installation Manual

3. Plan Check

- FenceTank inlets, outlets, and pumps are designed in the best location for the site.
- Services co-ordinated to avoid clashes and ease of install.
- Invert levels of discharge of stormwater pipework have been checked, making sure there is enough fall from the stormwater attenuation system.

4. Site Preparation

- Installer has received FenceTank Site Prep Document
- Install location is classified as 'good ground'
- If site is not 'good ground' concrete pad has been/will be prepared
- If applicable, All prep is required to be complete before WaterSmart installation team is due onsite. Any delays must be communicated, failure to do so will incur a site visit fee.

5. Post-Installation QA

- QA, and PS3 are required to qualify for the 10 year FenceTank warranty. All documents should be sent to opsadmin@stormwatersystems.co.nz.
