

SAVE UP TO 45% ON YOUR WATER!

/ WITH CLEAN, SAFE, DISINFECTED HYDRALOOP WATER

Hydraloop designs and produces decentralized water recycling products. They are smart, innovative water recycling products for residences, commercial real estate, hotels, lodges and more.

The easiest way to recycle water is to clean it right where you use it – decentralized.

Hydraloop collects, cleans and re-uses the water from showers, baths, washing machines, and air conditioning units. Hydraloop water is clean, clear, safe, and disinfected. It can be re-used for toilet flushing, washing machines, garden irrigation and topping up swimming pools.

Hydraloop uses a unique combination of sustainable water treatment technologies that ensures the highest water quality and creates a sustainable future.

We offer turn-key products and made-to-measure solutions for projects of any size. With Hydraloop, you give water a second life. Together, we drastically reduce the world-wide water consumption.

/ COLOUR OPTIONS
