

Developed by plumbers for the water industry, Flowgen is an innovative and intelligent measurement solution for your water assets throughout their life. Flowgen helps you to improve operational performance of your assets and assists in finding and reducing leaks, helping saving you time, money, and worry.

MONITOR THE HEALTH OF YOUR ASSETS

With over 10 years of experience in measuring water assets, and thousands of sensors and devices installed, we can guarantee the Flowgen system is easy to use, with simple dashboards and real-time notifications to help you achieve your water efficiency goals.

HOW FLOWGEN WORKS

- Collects data from sensors and devices
- Communicates via a 3G/4G gateway – to the Flowgen server
- Is accessible on your device of choice.

Why choose Flowgen?
