

FENCE TANK™

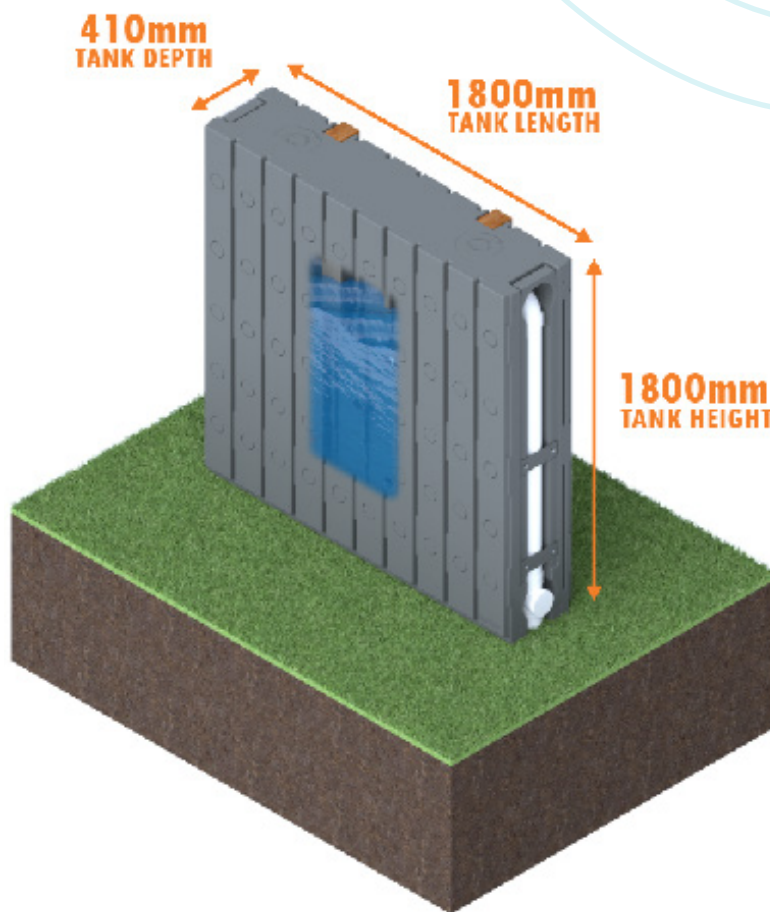

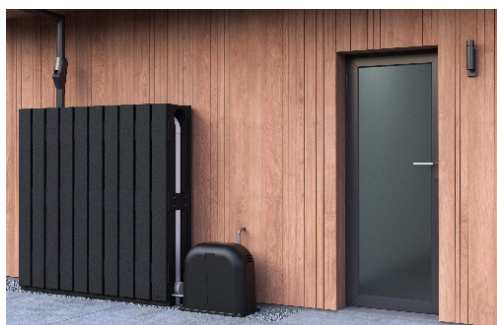

Innovative, Stylish, Easy to install

SAVES TIME, SPACE AND MONEY!

TANK DIMENSIONS

Single FenceTank Dimensions:
1800mm high x 1800mm long x 410mm deep

A single FenceTank holds 1,000 litres.

/ COLOUR OPTIONS

Three colours as stock (shown below), or go all out with our range of custom colour options (minimum order 20 units & quoted cost). Colour matched end panel and end caps sold separately.

JOINED TANKS

3,000 litres – 3 Fence Tanks

Dimensions: 1800mm high x 5400mm long x 410mm deep

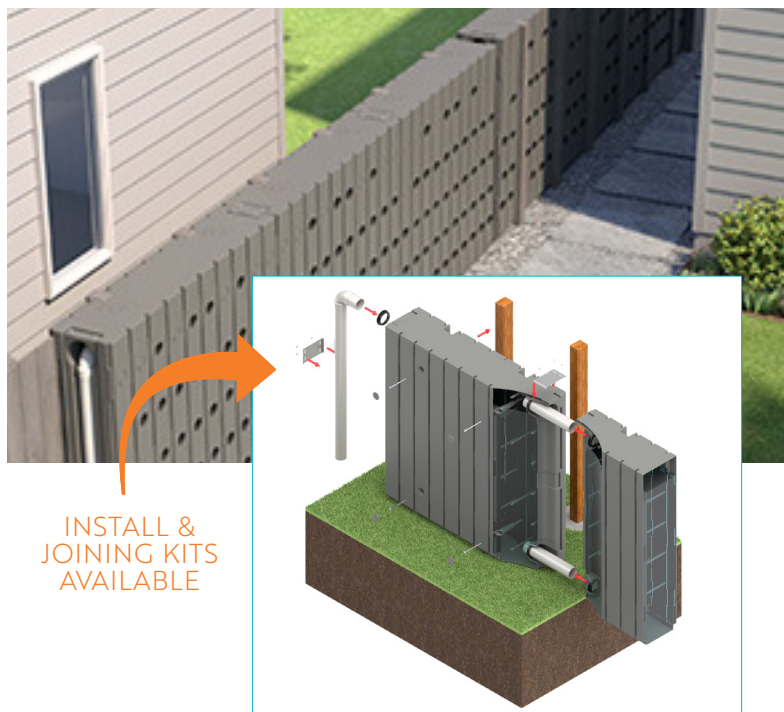

OFF-SET TANKS

Clever use of space by off-setting (dog legging) the boundary.

This avoids any issues around a requirement for easements and ensures each property has its tanks on its title, while minimising space occupied by the tank.

Picture shows 3,000 litres per property, just over 10.8 metres of length with 6 tanks in a row (3 for each property).

Effective loss of space on either property is just 205mm!

INSTALL & JOINING KITS AVAILABLE

SPECIFY THE FENCETANK!

Contact us for PS1 and specifications for inclusion in your drawings.

Easy to substitute from other unsightly or more costly above ground tanks. A range of pumps available depending on water use.

Call us for details

BENEFITS

Saves space – one of the narrowest above ground tanks on the market at only 410mm deep

Attaching to fence posts on the boundary means they only encroach on side or backyard space by no more than 336mm

Quick and easy to install – do NOT require a concrete base. Just 4 coach screws to attach to fence posts (in most cases)

May not need hiding or fencing as they are the fence!

Attractive – for a tank! No ugly pipework or appearance above fenceline, all pipework is hidden within the tank itself

Tank grade plastic so can be used for potable water or stormwater - Ideal for re-use systems

Can be joined together for a seamless installation (3 tanks = 5.4 lineal metres)

Fence can run seamlessly up to the tanks. Rails and pailings can be attached to posts behind the tank to protect 'other side'

Three colours available: Birch (light) Grey, Slate (dark) Grey, and Tank Black. Colours can be made to order - minimum quantity and lead time applies.
